

Associate Degree in Dental Hygiene

Start your future today with a dental hygiene degree

Work in an in-demand field with great opportunities for career growth and job security. Become a dental hygienist and see people smile every day. As a dental hygienist you will interact with patients on a daily basis, offer preventative services, and promote good oral health.

Our associate degree program in Dental Hygiene is designed to equip students with the skills to become professionals ready to assist the public and the community by providing clinical and oral cancer screening, therapeutic services, as well as oral dental education. The program is centered on evidence-based learning with the theoretical foundation and hands-on classwork that prepare students for the workforce and create an appreciation for lifelong learning.

Upon completion of the required 80 credit program, students will be eligible to apply for the National Board exams. After successfully passing the National Board exams, students will obtain a Connecticut Dental Hygienist Licensure.

Associate Degree in Dental Hygiene
